

# International SM Meeting

Turin, 10 – 13 May 2018

*The next International Meeting is organized by SM Club Italia. As anticipated during the Vitznau Meeting (CH), you will visit the city of **Turin** and its surroundings. It will be great to spend some days among us members of the European Clubs.*

*The ancient Piedmontese capital has a rich and interesting history. It was the residence of Casa Savoia, the Italian Royal family, before the birth of the Italian Republic. The heritage and legacy of Savoy domination are present in all corners of the Old Town and there are numerous places worth visiting. Turin was also the first State Capital of Italy and it is a charming city rich in history, tradition and culture.*

*For the next International Meeting we have selected some among the many destinations worth visiting, as four days are not enough, to visit them all.*

*For car enthusiasts, we offer a visit to the "Museo dell'automobile" as it represents the historical testimony of the post-war industrial period that started the so-called "economic boom" of the sixties during which Italy reached a degree of development unthinkable only a few years before. The cars exhibited lead us through driving styles and concepts of freedom related to the idea of the car as a transportation means to be use without limitation. It is a visit that will definitely make you think how nothing is stationary, but everything is evolving.*

*Alternatively, history enthusiasts will find it very interesting to visit the "Palaces and Museums" of the Kingdom of Italy that, with their elegance and richness of styles and content, will help to revisit the moments of history that have transformed the nation from a predominantly peasant territory to a state comparable to other major European Union countries. The streets of the city center will surprise you because they have preserved their historical identity that you will find even in the splendid halls of restaurants.*

Visit to the **Egyptian Museum** will surely be remembered for the magnificence of the finds that help to retrace the millennia-long history of ancient Egyptian civilization. The richness of the content classifies it as one of the most important and spectacular museums in the world.

Another jewel of architecture and Savoy style is the famous "**Villa Reale di Venaria**" which, with its spaces and its gardens, is a destination for international tourism, an opportunity not to be missed and which will remain in the memory of the participants. **The Venaria Reggia** was designed by the architect Amedeo of Castellamonte. It was commissioned by Duke Carlo Emanuele II, who intended to make it the base for hunting in the Turin hills.

The last stop is the visit to the "**Basilica of Superga**", a magnificent neoclassical architectural building, the magnificence of which is surpassed only by the enchanting panorama that will spread in front of your eyes. Jean Jacques Rousseau called it "the most beautiful show that can be presented to the human eye".

Our beautiful SM will drive on the streets of Europe to gather all of us on this "journey in Italy" and to spend time among car lovers in a truly exclusive location.

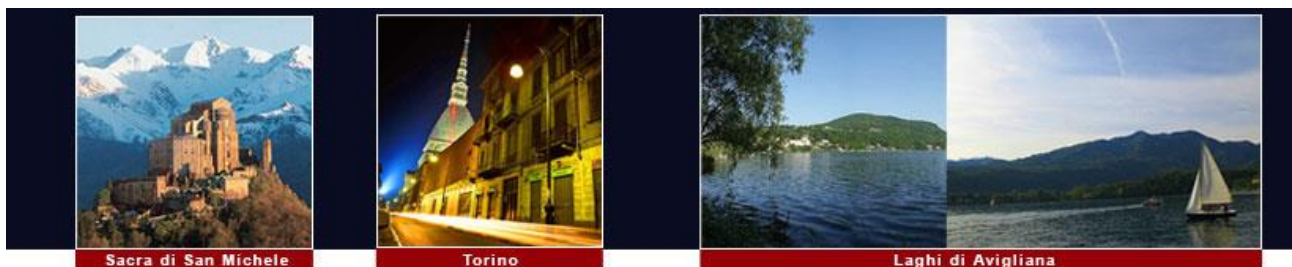

## *The program*

***Thursday, 10 May 2018***

*From 3 pm onwards:*

- *Welcome of the participants at the lobby of **Ninfa Hotel** located in **Avigliana (Turin)**, in Viale Gandhi, n ° 9,*
